

StoreMobile^{RF}

Is your staff spending countless hours off the sales floor doing inventory or transfers instead of helping customers?

Imagine performing traditional back office functions like: inventory counts, receiving, transfers or item look ups real-time into MMS, from a simple handheld device, without leaving the sales floor.

RTC "The MD of Retail IT" brings you **StoreMobile^{RF}**, the answer for retailers looking for increased mobility in managing their MMS operations. This powerful wireless solution is designed to allow JDA MMS® users to improve their operational work flow while viewing, collecting, and managing key information real-time to MMS, from anywhere in the store, saving them time and money.

- **StoreMobile^{RF} Maximizes Staff Productivity** – keeping Sales staff on the sales floor instead of chained to the back office.
- **StoreMobile^{RF} Improves Accuracy** – provides real-time data and eliminates double processing and unnecessary paperwork
- **StoreMobile^{RF} Provides Impressive ROI** - by leveraging your current MMS network infrastructure investment
- **StoreMobile^{RF} saves money and improves customer service.**
